

Dock Boxes

Kracor heavy-duty dock boxes are molded of white ultraviolet inhibited polyethylene and are ideal for storage of outboard motor, mops or that extra gear you don't want on board. Kracor dock boxes feature:

- Heavy-duty construction
- All stainless steel hardware
- Stainless steel cover restraints
- Ledge for adding a shelf
- Lockable hasp
- Long term UVI stabilizers to protect against sunlight

Units are shipped knocked down and nested.

model no.	capacity	length	width	height
62-4110	16 cu. ft.	48.50"	24.38"	24.00"
62-4109	20 cu. ft.	61.00"	38.00"	24.00"

Part #62-4109
27.00" at center
of crowned cover

Part #62-4110
25.50" at center
of cover

Dock Flotation

For companies who fabricate floating docks, here is the answer to your flotation needs. Kracor's dock floats are rotationally molded of tough polyethylene, then filled with modified polystyrene foam. Floats are available in crosslinked or linear polyethylene.

Check these advantages:

- Not affected by gasoline or oil
- Rodent and animal resistant
- Protected from sunlight by ultraviolet inhibitors
- Economical
- Eight attachment points
- Filled with polystyrene foam
- Not affected by heat, cold temperatures or ice
- Will float even if punctured
- Maintenance free
- One-piece construction

FLAT TOP

model no.	material	Dimensions L x W x H	Max. Load (lbs.)
63-8466-00	XLPE	48" x 24" x 16"	550
63-8466-01	LLDPE	48" x 24" x 16"	550

May be shipped UPS.

Buoys

Model #2128
Molded of high impact polyethylene with UVI inhibitors.
Color:
International Orange
Dimensions:
72" body including radar reflector
38.5" diameter
